Unless you tell us not to, we share your assessment information with other health service providers who will provide you with support now and in the future.

# Sharing Your PHI

If you have agreed to share your PHI, the information in your assessment will be used to:

- Provide health support and services based on your needs
- Make sure your providers have the most up-to-date and complete record of your health history and needs
- Help us see where there might be gaps or overlaps so we can provide services where they are most needed
- Make sure everyone is getting the right support and services
